

Connect underserved communities with hotspots and mobile devices.

Solution brief

Provide wireless broadband and voice services to eligible users through the Verizon Digital Inclusion program.

The digital divide hinders full participation in modern life. To help more communities gain access to wireless broadband and voice services, we have launched the Verizon Digital Inclusion program.

Verizon is committed to economic and social advancement for everyone, and to a world where everyone can affordably participate in the digital economy.

That's why we've created the Verizon Digital Inclusion program.

Through this program, state and local governments can purchase equipment and services for connecting eligible users to the Verizon network.¹

Eligible users include:

- Participants in the National School Lunch Program
- Pell Grant recipients
- Members of low-income households (with eligibility based on the Federal Poverty Guidelines)²

The Verizon Digital Inclusion program makes certain mobile broadband and voice service plans and equipment available for purchase by governmental agencies and not-for-profit entities for use by eligible users they serve. These include data and voice plans that can be paired with select hotspots, smartphones and basic phones, as well as tablets and embedded laptops purchased from Verizon or the Original Equipment Manufacturer.

Why Verizon?

Support for your digital inclusion initiatives.

Verizon is a partner that can help you realize your vision for digital inclusion.

Reliable and affordable connectivity.

Get resilient connectivity and the network coverage you need on America's most reliable network.²

Reliable and secure remote work solution.

Keep communities running smoothly and people working productively, able to connect and collaborate from almost anywhere.

Experienced and trusted partner.

We have decades of experience as a trusted partner to the public sector, from rural communities to the largest state and federal agencies.

To join the Verizon Digital Inclusion program:

Contact your local Verizon Government Account Manager to get a price quote.

¹ America's most reliable network based on rankings from the RootMetrics® US National RootScore® Report: 2H 2020. Tested with the best commercially available smartphones on 3 national mobile networks across all available network types. Your experiences may vary. The RootMetrics award is not an endorsement of Verizon.
